

MAHMOUD ELGYUOSHY

MERN-Stack Web Developer

 Egypt , Suez  [MahmoudElgyuoshy](#)  [Mahmoud](#)  +20 1030897704  elgyuoshy@gmail.com

PROFILE INFO

Aspiring MERN-stack web developer proficient in front-end and back-end technologies. I proficient in UI & UX using figma
Active in various tech communities and competitions, with a goal to innovate and excel in web development.
My goal is to create a clothing brand.

EXPERIENCE

Jan 2024 - Mar 2024

Suez

Full-stack Developer

- "Second Chance" is a school project to market stores offering excellent quality products at low prices, with a focus on electronic product marketing. The project won second place in the school, and I was the team leader and site developer as a Full-Stack Developer.

PROJECTS

1- Tic-Tac-Toe (X O)

Developed using React.js. Features include determining the winner, handling ties, and a user-friendly interface.

2- Authentication Mern -Stack

Implemented login and registration using MERN stack, ensuring email and password validation.

3- Calculator

IBuilt using HTML, CSS, JavaScript, and Bootstrap, featuring all basic mathematical operations.

4- Magic Memory Game

Memory Game using React.js and Tailwind CSS

A game where you reveal cards, memorize their positions, and match similar cards to score points.

5- API Project

Created an API to retrieve user data, displaying detailed information on username click.

6- Phone store Design

I've developed proficiency in UI & UX design and utilized figma to create a responsive smartphone store design. This includes tailored layouts for Desktop, Tablet, and Phone screens, ensuring seamless integration for development with optimization at its core.
